Dissatisfied with the appearance
of your Chin and Jaw line?
Fear Surgery?
Looking for Immediate Results?

ALGENESS® IS A 100% NATURAL ALTERNATIVE

IMMEDIATE AND LONG LASTING RESULTS

NO DOWNTIME NO SWELLING

Algeness® 100% NATURAL

## ALGENESS® NON-SURGICAL CHIN RESHAPING IS A SAFE, ALL NATURAL ALTERNATIVE

Many people feel that their chin is too small or shaped incorrectly in relation to the rest of their face. The traditional “solution” was surgery with recovery time up to six weeks. Chin enhancement can now be accomplished easily via an injectable implant using Algeness® avoiding unnecessary surgery and benefitting from immediate results

## A NEW ERA OF INJECTABLE IMPLANT IS BORN

Algeness® injectable implant is the culmination of ten years of scientific and clinical research. 100% natural and biodegradable, Algeness® is the first of its kind and is intended for those patients seeking to enhance their chin shape without surgery the related downtime.

## SAFE SOLUTION FOR GREATER FACIAL HARMONY

A small chin can make a normal nose appear large, with the neck appearing soft and sagging loosely. A simple treatment of Algeness® injectable implant on the bone surface of the chin adds proportion to the lower face enhancing the overall shape and harmony of the face.

**Algeness® agarose gel structure**
**Agarose is an hydrocolloid molecule containing water in its structure.**

Algeness® non-surgical “Chin augmentation” provides a safe, effective, and immediate solution. When performed by an experienced, trained Algeness® cosmetic physician, it greatly improves the chin shape, giving the patient a natural well-proportioned look.

## ALGENESS® INJECTABLE IMPLANT. A BREAKTHROUGH IN THE MEDICAL AESTHETIC INDUSTRY

Algeness® is a biomaterial consisting of a purified agarose gel (polysaccharide), derived from a sophisticated patented manufacturing process. For the first time in the aesthetic medical history, a 100% natural, biocompatible and biodegradable filler is available to you. Free from harmful

## WITH ALGENESS® 100% NATURAL FILLER, WHAT YOU SEE IS WHAT YOU GET!

Thanks to the Algeness® molecular and biophysical structure, as well as our unique injection procedure, your physician is able to Master your Results ™ immediately, with minimal swelling and downtime.

# FAQ

**■ Am I a good candidate?**
If you have a very small or recessed chin, you are a good candidate for an Algeness® injectable implant as long as you have realistic expectations regarding the results.

**■ Is it painful?**
All injections cause a sense of pain; however, the physician may decide to apply anesthetic cream to the injection site to numb the area before the procedure.

**■ What is the difference with real chin implant procedure?**
Algeness® injectable Chin implant is a temporary solution which needs to be repeated regularly (12+ months) to maintain the results. However, the benefits are multiple such as a lower risks of complication, minimal bruising, no swelling, no migration, no anesthesia and no downtime.

**■ How will my chin look like after injection?**
Algeness® injectable implant is moldable, once in place, the physician will shape the chin implant to create a natural-looking jaw line.

**■ How long will it last?**
Algeness® Chin implant typically last for about 12 months or longer depending on the product and volume injected.

**■ What are the side effects?**
The procedure is relatively painless, although there may be some mild discomfort during the procedure. There may be some redness around the site of the injection and a little swelling which might last for 1-2 days.

**■ What is the recovery time?**
Treatment times may vary from 20-25 minutes, depending on the correction level requested by the patient. The recovery time can be from a few hours to 2 days depending on the volume injected. Usually, patients receiving Algeness® treatments return to normal activities straight after injection.

**■ What is the difference with other fillers?**
Unlike all other fillers, Algeness® is 100% natural and biodegradable. Algeness® achieves its volumizing effects without the requirement of any added chemicals, or cross-linked agents and is completely and safely absorbed over time by the body’s natural mechanisms.
